1. Home, Sensors   ...   Me, Logout
   ↳ Navbar Logout

2. Home screen with Sensors with different Layout

3. Display → Rename to Statistics

4. On display page → Change sidebar

```
┌─────────────────┐
│ X axis          │        ┌──────────────┐
│                 │        │ Group 1      │
│ ────────        │        │              │
├─────────────────┤        │ ──────       │
│ Y axis          │        │ ──────       │
│                 │        ├──────────────┤
│ ────────        │        │ Group 2      │
├─────────────────┤        │              │
│ Sensors         │────→   │ ──────       │
│                 │        │ ──────       │
│ ┌───────────▼┐  │        │              │
│ └────────────┘  │        │      ⋮       │
└─────────────────┘        └──────────────┘
```

5. Add filter and search in dropdown
   of sensor choice

6. Clickable Home Btn with logo/icon

7. Coherent icons on sidebar on display page

8. Bigger foote with bit more stuff on it
   like link to documentation/GitHub/website/Date/Copyright
